2010 Aspiring Engineer Scholarship

Professional Engineers Ontario Scarborough Chapter is pleased to announce the availability of two scholarships (for one male and one female student), each worth \$500, to promote engineering within the Scarborough community.

PEO Scarborough Chapter would like to invite applicants who are currently in Grade 12 in Scarborough region high school, and will be entering a Canadian Engineering Accreditation Board (CESB) approved Ontario University Engineering program in September 2010.

Eligible applicants will be initially evaluated on their academic performance, involvement in extracurricular and leadership activities, and a short written essay to outline their interest in the engineering profession. Eight applicants will be selected through this process and invited to be interviewed by a panel of engineers. The final two award winners will be selected from the applicants interviewed. Consolation Scholarships will also be awarded to selected interviewees.

The application form and details of this scholarship can be found on PEO Scarborough Chapter website: www.scarborough.peo.on.ca. Please email your application form before June 30, 2010 to: scholarship@peoscarborough.ca.
